PROFILE

Detail-oriented undergraduate Cybersecurity student pursuing a Bachelor's degree, with hands-on experience in web application security testing, digital forensics, and vulnerability assessment and penetration testing (VAPT). Google Cybersecurity Certified, with practical skills in security analysis, attack simulation, and defensive monitoring using industry-standard tools. Highly motivated to apply and grow cybersecurity skills in real-world environments.

EDUCATION

Mehran University Of Engineering and Technology	<i>Jamshoro Sindh, Pakistan</i>
Bachelor of Science in Cyber Security	2023 – 2027
Govt: Boys Higher Secondary School City Shikarpur	<i>Shikarpur Sindh, Pakistan</i>
Intermediate in Pre-Engineering	2021 – 2023
The Educators School	<i>Shikarpur Sindh, Pakistan</i>
Matric	2019 – 2021

SKILLS

Technical: Digital Forensics, Broken Access Control, Password Cracking, SQL Injection (SQLi), Cross-Site Scripting (XSS), Command Injection, Web Application Security Testing, Network Scanning & Enumeration, Wi-Fi Security Testing, Vulnerability Assessment & Penetration Testing (VAPT), Python, Man-in-the-middle.

Tools: Autopsy, Registry explorer, Wifite, Wazuh, Wireshark, John the Ripper, Nmap, Burp Suite, OWASP ZAP, Metasploitable, SQLMap, Nikto, Metasploit Framework, Aircrack-ng, Bettercap, ngrok.

Certifications: Google Cybersecurity Specialization, Certified Cybersecurity Educator Professional (CCEP), Deloitte Australia – Cyber Job Simulation, Ethically Hack the Planet, Digital Pakistan Cyber Hackathon – Cybersecurity Training Workshop

EXPERIENCE

Digital Empowerment Network	<i>Remote, Pakistan</i>
Cyber Security Intern	15/07/2025 – 02/09/2025
<ul style="list-style-type: none">Performed web application security testing using CEH-based methodologiesAnalyzed PCAP files in Wireshark and conducted digital forensics using AutopsyDeployed honeypot, worked with Wazuh SIEM, IDS/IPS, and basic malware analysis	
Brainwave Matrix Solutions	<i>Remote, Pakistan</i>
Cyber Security & Ethical Hacking Intern	01/07/2025 – 01/08/2025
<ul style="list-style-type: none">Built Python-based security tools (phishing link scanner, password strength checker)Applied secure coding practices to simulate real-world attack scenarios	
DevelopersHub Corporation	<i>Remote, Pakistan</i>
Cyber Security Intern	10/06/2025 – 26/07/2025
<ul style="list-style-type: none">Identified and validated 12+ web vulnerabilities including SQLi and XSS across test environmentsUsed Burp Suite and OWASP ZAP for manual vulnerability testing and validation	

PROJECTS

Mini SIEM + Attack detection system	03/01/2026 – Current
Honeypot + Threat intelligence analysis	08/11/2025 – 15/12/2025
Phishing Simulation Framework	15/10/2024 – 03/11/2024
Phishing Link Scanner Using ML	01/09/2025 – 17/09/2025
Auto Airtwin	20/07/2025 – 29/07/2025
